

INSTRUCTIONS MANUAL

How to set up (figure 1-4)

Follow these instructions carefully to avoid pinching your hands or fingers in any of the moving parts as the frame opens and closed. To erect the fold up gazebo required **TWO PEOPLE** at least to ensure the construction not damaged by unequal strength.

1. Place your fold up gazebo in the center of the area to be sheltered. Remove the carry bag and stand the fold up gazebo on it's feet. With partner on the opposite side, grasp two outer legs, slightly lift the frame off the ground and take a step backwards, stopping at full (outstretched) arms length.
2. Each partner should grasp the top and bottom of the diamond (see diagram) formed by the side supports on opposite sides and push hands together while stepping backwards until the shelter is fully opened. Be careful not to pinch your fingers or to pull backwards too hard as this will result in the side supports bending.
3. Engage the slider at each corner by pushing up with one hand while holding down the top of the leg with the other hand (see diagram) A snap button will engage in the locating hole. Repeat this operation on the remaining three legs.
4. Lift up the leg to sliding the inner leg out until the snap button locks in the location hole. Repeat this operation for the other two legs.
5. Square up the fold up gazebo. Attach the Velcro tabs, located on the underside of the top cover, around the frame struts.
6. Use the guy ropes attached to the ring at each corner of the roof cover and stakes, to secure your fold up gazebo cover to the ground or just use the stakes through the hole in each legs foot.

How to take down (figure 5-8)

Please make sure the canopy material is completely dry return the storage bag.

1. Remove any leg stakes and guy ropes, undo the velcro tabs of the top cover from around the frame.
2. You and your partner should each lift up two adjacent outer legs slightly, depress the snap button and push the telescopic inner legs into the outer legs, repeat for the remaining two legs.
3. Release the slider at all four corners by a slight upward pressure with one hand while depressing the snap button to release the slider with the other. Push slider down past the snap button.
4. Each partner should grasp the top of the diamond (see diagram) on opposite sides and slightly lift up. Shake the canopy a little. Pull hands apart while stepping towards your partner until the unit is three quarters closed.
5. grasp the two outer legs. Slightly lift off the ground and push together to fully close then return to the storage bag.
